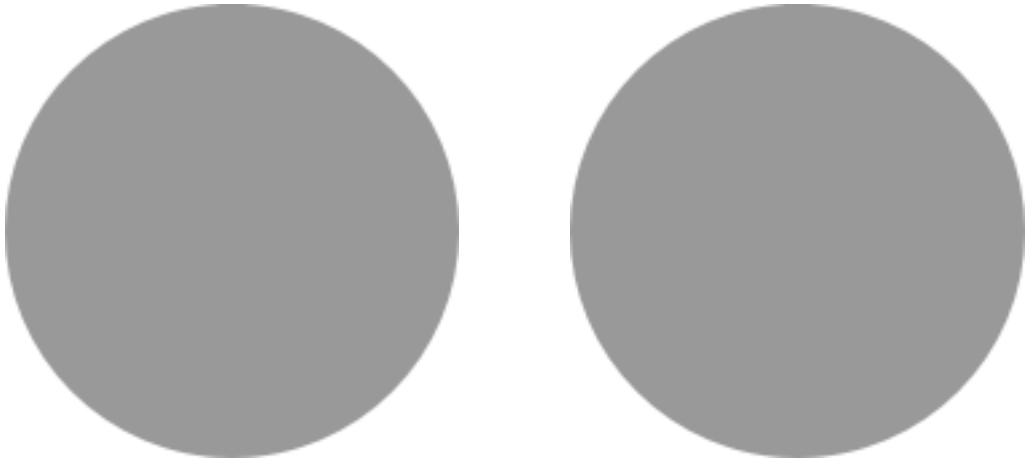
Democracy? -5

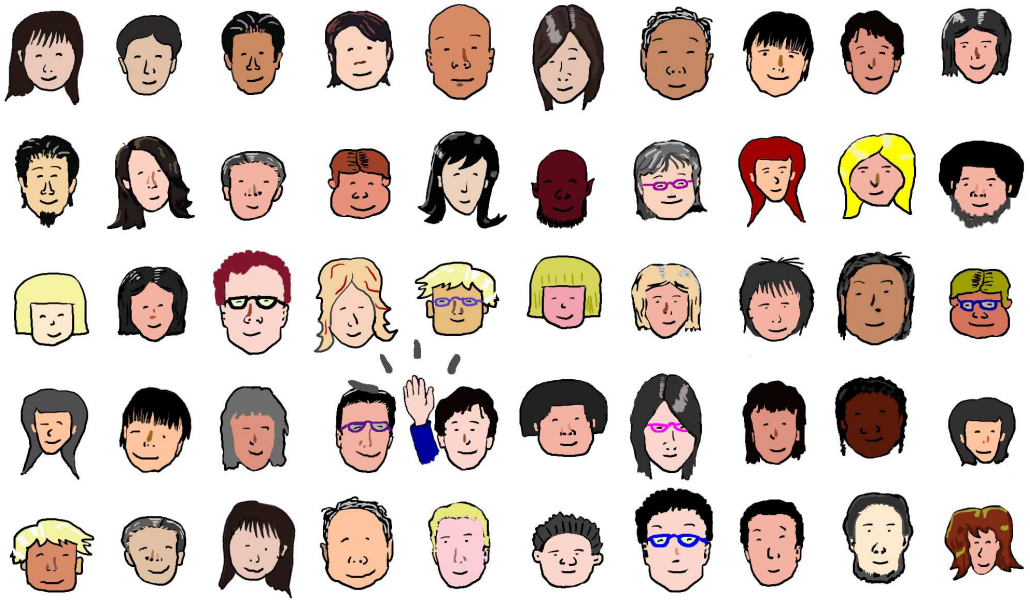
One of Two



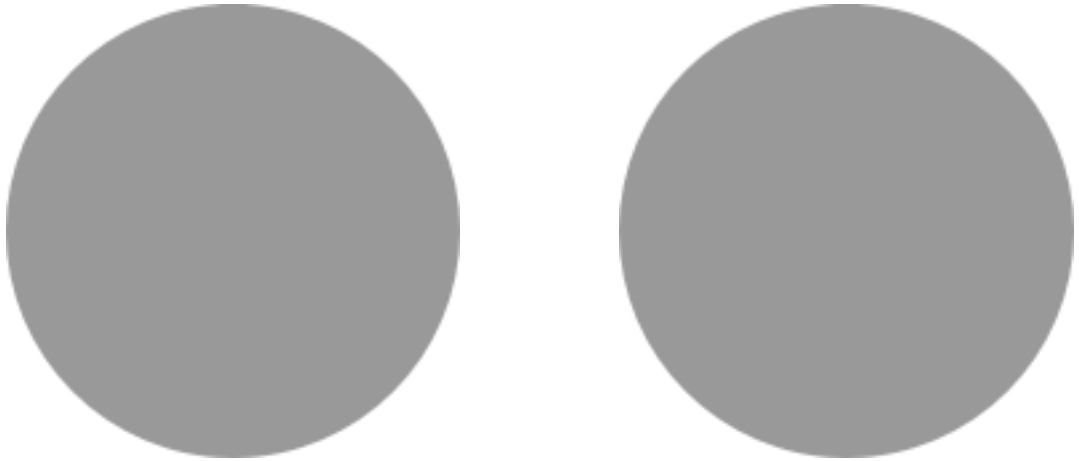
Jun Togo

In majority rule, the number of choices is only two, if you want to come to conclusion without fail.

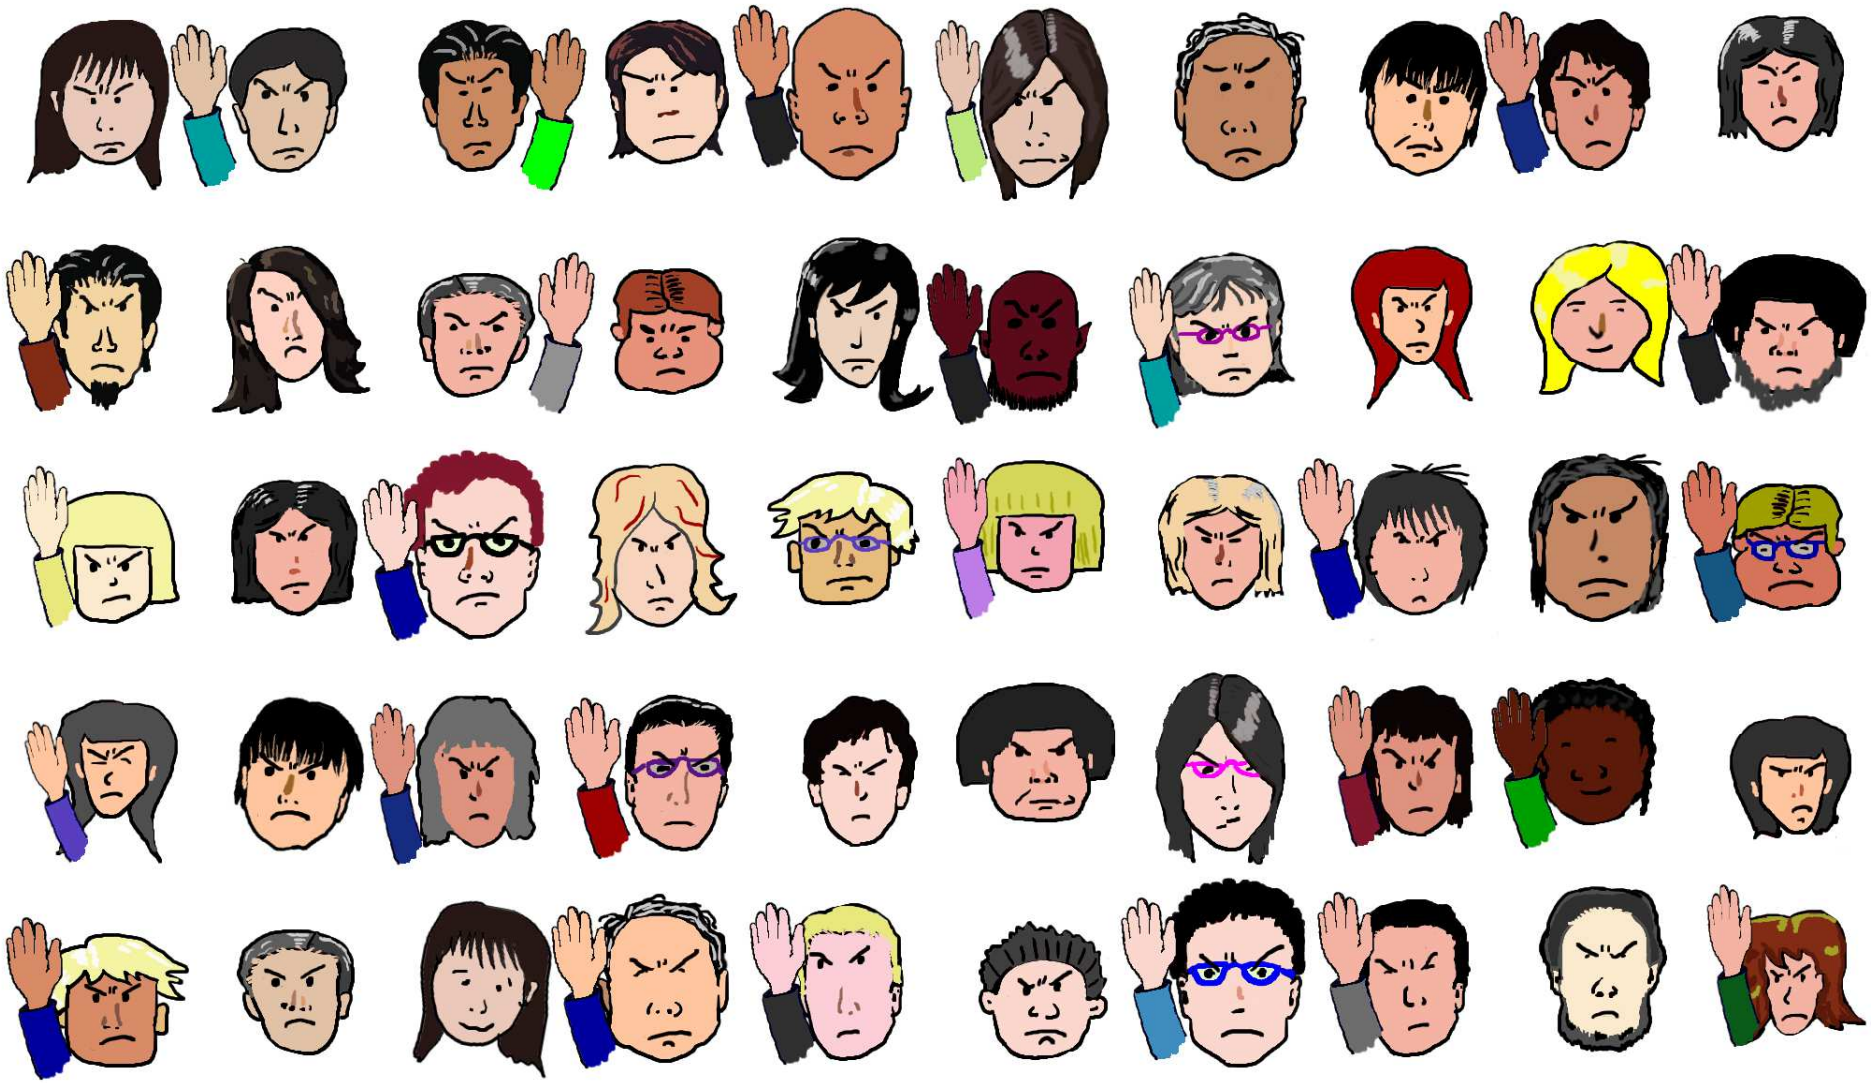
If the number of choices is three or more and the vote is split, the majority cannot be achieved. If the number of choices is one, then it is not a choice.



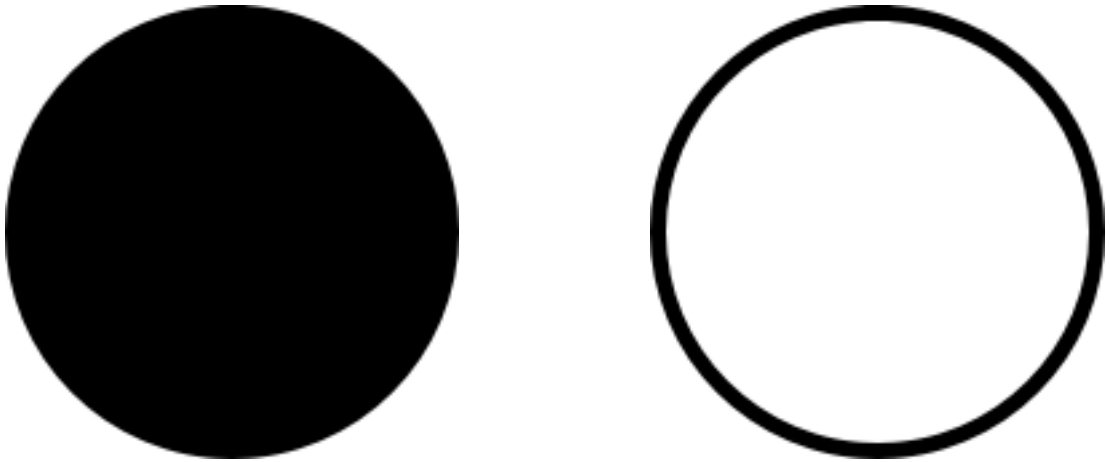
All you can do is to choose one of two.



…Then which?



This one



That seems to be enough to choose good or evil.

Afterword
